Scientific Alliance

## About GFMSA

Global Family Medicine Scientific Alliance (GFMSA) is a non-political gathering of organisations and individuals committed to the promotion of Family Medicine education through dialogue and networking. GFMSA members are from all regions of the globe

### 1. Introduction

Global Family Medicine Scientific Alliance (GFMSA) is non profitable alliance of organizations and individuals, committed to the promotion of family medicine through science, dialogue and networking

#### Vision :

Created to promote and maintain the ethics and standards of the primary health care system through continuous education and knowledge transfer.

#### Mission:

Contribute towards better health by enhancing the Family Medicine concepts inclusive of health promotions, prevention and curative programs as well promoting equity in health accessibility to the services and delivery of health programs efficiently and effectively to the community.

#### Objectives:

- To highlight scientific issues and make recommendations
- To promote and advance the Family Medicine update and its effect on the community
- To foster continuing education to the Family medicine professionals through the support of the alliance.
- To increase Family medicine networks with a common interest in Primary Health Care services across the region.
- To strengthen the cooperation amongst the Family physicians alliance, societies, organisations and industry globally.

### 2. Membership and Categories

#### Official National

- 1) Family Medicine Association/ Societies
- 2) Ministries of Health
